At the top of the scale (value 10) are the people who are the **most** well off. They earn the most money, receive the best education, and have the most respected jobs.

At the bottom of the scale (value 1) are the people who are the **least** well off. They earn the least money, receive no education, and have no jobs or the least respected jobs.

**Now think about where you would place your family on this scale.**

Imagine a 10-point scale that represents how much effort you put into something.

The highest value (10) represents a situation where you tried your very best and put in as much effort as possible to do well.

The lowest value (1) represents a situation where you did not try hard at all and put in the lowest possible effort to do well.

**Now think about the effort you put into completing the PISA test and questionnaire.**
