## ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where the governments of 30 democracies work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The Commission of the European Communities takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

*This work is published on the responsibility of the Secretary-General of the OECD. The opinions expressed and arguments employed herein do not necessarily reflect the official views of the Organisation or of the governments of its member countries.*

## ORGANISATION DE COOPÉRATION ET DE DÉVELOPPEMENT ÉCONOMIQUES

L'OCDE est un forum unique en son genre où les gouvernements de 30 démocraties œuvrent ensemble pour relever les défis économiques, sociaux et environnementaux, que pose la mondialisation. L'OCDE est aussi à l'avant-garde des efforts entrepris pour comprendre les évolutions du monde actuel et les préoccupations qu'elles font naître. Elle aide les gouvernements à faire face à des situations nouvelles en examinant des thèmes tels que le gouvernement d'entreprise, l'économie de l'information et les défis posés par le vieillissement de la population. L'Organisation offre aux gouvernements un cadre leur permettant de comparer leurs expériences en matière de politiques, de chercher des réponses à des problèmes communs, d'identifier les bonnes pratiques et de travailler à la coordination des politiques nationales et internationales.

Les pays membres de l'OCDE sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, la Corée, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, la Hongrie, l'Irlande, l'Islande, l'Italie, le Japon, le Luxembourg, le Mexique, la Norvège, la Nouvelle-Zélande, les Pays-Bas, la Pologne, le Portugal, la République slovaque, la République tchèque, le Royaume-Uni, la Suède, la Suisse et la Turquie. La Commission des Communautés européennes participe aux travaux de l'OCDE.

Les Éditions OCDE assurent une large diffusion aux travaux de l'Organisation. Ces derniers comprennent les résultats de l'activité de collecte de statistiques, les travaux de recherche menés sur des questions économiques, sociales et environnementales, ainsi que les conventions, les principes directeurs et les modèles développés par les pays membres.

*Cet ouvrage est publié sous la responsabilité du Secrétaire général de l'OCDE. Les opinions et les interprétations exprimées ne reflètent pas nécessairement les vues de l'OCDE ou des gouvernements de ses pays membres.*

## Foreword

This report presents individual activities relating to Official Development Assistance (ODA) and Official Aid (OA) to countries in Latin America and the Caribbean for the year 2003, and reported to the CRS Aid Activity database (Creditor Reporting System). In order to complement the information on aid activities, summary tables and charts on aid to Latin America and the Caribbean are also included.

This is one of the five **Creditor Reporting System: Aid Activities** regional reports. The others cover: Africa, Asia, Europe and Oceania and CEECs/NIS. Each contains information on individual aid commitments for 2003 (i.e. intended disbursements), and thus presents as complete a picture as possible of aid activities in each region.

In addition, each year, a special edition of the publication *CRS: Aid Activities* is dedicated to a specific sector theme. This year, the special edition is on *Aid Activities in Support of Gender Equality, 1999-2003*.

The information presented is designed primarily to meet the needs of development agencies and institutions in terms of programming and analysis by country and by sector. For each developing country, activities are ordered by sector and by donor.

The data used have been supplied by donors, DAC members<sup>1</sup> and multilateral institutions. Complete records from 1973 onwards are available on the yearly *International Development Statistics* CD-ROM, and on the DAC online site at the following address: [www.oecd.org/dac/stats/crs](http://www.oecd.org/dac/stats/crs).

This document was prepared by the Development Co-operation Directorate. It is published on the responsibility of the Secretary-General of the OECD.

1. The members of the DAC are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Italy, Ireland, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom, the United States and the European Communities.

## Avant-Propos

Ce rapport présente les activités individuelles relatives à l'Aide publique au développement (APD) et à l'Aide publique (AP) aux pays d'Amérique latine et des Caraïbes pour l'année 2003 notifiées dans la base de données SNPC sur les activités d'aide (Système de notification des pays créanciers). Afin de compléter les informations détaillées sur les activités d'aide, des tableaux et graphiques de synthèse sur les apports d'aide en Amérique latine et dans les Caraïbes sont également inclus.

Le rapport fait partie des cinq publications régionales **Système de notification des pays créanciers : Activités d'aide**. Les autres rapports couvrent l'Afrique, l'Asie, l'Europe et l'Océanie et les PECO/NEI. Chacun présente des informations sur les engagements individuels d'aide pour 2003 (c'est-à-dire les versements anticipés), et donne ainsi une image aussi complète que possible des activités d'aide dans chacune des régions.

De plus, une édition spéciale de la publication *SNPC : Activités d'aide* se consacre chaque année à un thème particulier. L'édition spéciale de cette année porte sur les *Activités d'aide visant l'égalité homme-femme 1999-2003*.

Les informations présentées visent les besoins des agences et institutions de coopération au développement en matière de programmation et d'analyse par pays et par secteur. Pour chaque pays bénéficiaire, les activités sont groupées par secteur et par donneur.

Les données ont été notifiées par les donateurs, membres du CAD<sup>1</sup> et institutions multilatérales. L'édition complète des données depuis 1973 est disponible sur le CD-ROM annuel *Statistiques sur le développement international*, et en ligne sur le site du CAD à l'adresse : [www.oecd.org/cad/stats/snpc](http://www.oecd.org/cad/stats/snpc).

Ce document a été préparé par la Direction de la coopération pour le développement. Il est publié sous la responsabilité du Secrétaire général de l'OCDE.

1. Les membres du CAD sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, l'Irlande, l'Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse et la Communauté européenne.

## I. Basic aspects of the CRS Aid Activity database

(Creditor Reporting System)

The CRS Aid Activity database includes data on Official Development Assistance (ODA), Official Aid (OA) and other lending to developing countries and countries in transition.

The CRS was established in 1967, jointly by the OECD and the World Bank, with the aim of “supplying the participants with a regular flow of data on indebtedness and capital flows”. Calculating capital flows and debt stock remain key functions of the system, but others have evolved in the course of years. In particular, the CRS aid activity database has become the internationally recognised source of data on the geographical and sectoral breakdown of aid and is widely used by governments, organisations and researchers active in the field of development. For DAC members, the CRS serves as a tool for monitoring specific policy issues, supplementing the information collected at the aggregate level in the annual DAC Statistics.

The **CRS Aid Activity database** comprises commitment and disbursement data on Official Development Assistance (ODA) and Official Aid (OA) activities in developing countries and countries in transition submitted by members of the DAC and multilateral institutions (between 30 000 – 45 000 transactions in recent years). Data in this publication refer to commitments, if not otherwise stated.

Amounts shown in this report have been converted to USD using the annual average exchange rates. In order to concentrate on the most relevant information, commitments of less than twenty thousand USD are not shown. Amounts have been aggregated by recipient and by donor for projects with same purpose codes and descriptions. The exhaustive list of transactions may however be consulted in the CRS database (on CD-ROM and online at the following address: [www.oecd.org/dac/stats/crs](http://www.oecd.org/dac/stats/crs)).

## I. La base de données SNPC sur les activités d'aide en bref

(Système de notification des pays créanciers)

La base de données SNPC sur les activités d'aide comprend des données sur l'Aide publique au développement (APD), l'Aide publique (AP) et les autres prêts aux pays en développement et pays en transition.

Le SNPC a été établi en 1967 conjointement par l'OCDE et la Banque mondiale afin de fournir « régulièrement aux participants des renseignements sur l'endettement et les apports de moyens financiers ». Les statistiques sur les apports de ressources et le stock de la dette restent d'actualité, mais les fonctions du système ont évolué au cours des années. En particulier la base de données sur les activités d'aide est devenue la référence internationale sur la répartition géographique et sectorielle de l'aide et est largement utilisée par les gouvernements, organisations et chercheurs actifs dans le domaine de l'aide. Pour les membres du CAD, le SNPC est un outil de suivi des questions politiques spécifiques, qui complète les informations agrégées notifiées dans les statistiques annuelles du CAD.

La **base de données sur les activités d'aide du SNPC** comprend des données sur les engagements et les versements d'Aide publique au développement (APD) et d'Aide publique (AP) dans les pays en développement et les pays en transition par les membres du CAD et par des institutions multilatérales (de 30 000 à 45 000 transactions ces dernières années). Les données de cette publication portent sur les engagements, sauf indication particulière.

Les montants indiqués dans ce rapport ont été convertis en dollar des EU en utilisant les taux de change moyens annuels. Afin de mettre en évidence l'information la plus pertinente, les transactions d'un montant inférieur à vingt mille USD ne sont pas présentées. Les montants sont cumulés par receveur et par donneur pour les projets qui ont le même code-objet et la même description. La liste complète des transactions peut cependant être consultée dans la base de données SNPC (sur CD-ROM et en ligne à l'adresse : [www.oecd.org/cad/stats/snpc](http://www.oecd.org/cad/stats/snpc)).

## II. Coverage of CRS aid activities by donor and by recipient

The Development Assistance Committee collects data on ODA/OA commitments and disbursements at the level of individual aid activities in the CRS, and in the form of aggregates in the annual DAC Questionnaire.

Same concepts and definitions apply in the two systems. The fact that CRS reporting is based on agreed definitions and classifications permits comparisons between donor countries. Furthermore, the direct link to aggregate DAC data enables statistical analysis and verification of the information. CRS data are compared to those of the DAC Questionnaire and CRS coverage ratios are calculated.

The **coverage ratio** measures the comprehensiveness of CRS data. It indicates the extent to which the data can be exploited in analytical work. High coverage permits an in-depth analysis. Low coverage means that CRS data, though descriptive, may not present a balanced picture of DAC members' aid. Coverage ratios vary over time.

The coverage ratios complement the information presented in this publication. The proportion of activities missing should be borne in mind when using the data.

Coverage ratios of less than 100% mean that not all ODA/OA activities have been reported in the CRS.

Some coverage ratios may be greater than 100% due to a better geographical allocation of commitments. Also, when commitments are not reported to the DAC, disbursements are used instead in the comparison with CRS commitments.

For Greece, Ireland, Spain and partly France and Portugal, DAC and CRS grant data relate to disbursements. Loans from Portugal and Spain, and all data from the United Kingdom are also reported to the DAC on a disbursement basis.

## II. Couverture SNPC des activités d'aide par donneur et par bénéficiaire

Le Comité d'Aide au Développement collecte des données sur les engagements et les versements d'APD/AP au niveau des activités individuelles d'aide dans le SNPC, et sous forme d'agrégats dans le Questionnaire annuel du CAD.

Les mêmes concepts et définitions s'appliquent dans les deux systèmes. Le fait que le SNPC soit basé sur des définitions acceptées par l'ensemble des participants permet de comparer les informations entre donateurs. De plus les liens directs avec les données agrégées du CAD permettent une analyse statistique et une vérification de l'information. Les données SNPC sont comparées à celles du Questionnaire CAD et des taux de couverture SNPC sont calculés.

Le **taux de couverture** mesure à quel point les données du SNPC sont complètes. Il donne une indication sur les possibilités d'utiliser les données dans les travaux d'analyse. Une couverture élevée permet une analyse approfondie. Un taux de couverture faible signifie que les données du SNPC, bien que descriptives, ne présentent pas une image équilibrée de l'aide des membres du CAD. Les taux de couverture varient selon les années.

Les taux de couverture complètent l'information présentée dans cette publication. Lors de l'utilisation des données, il devrait toujours être tenu compte de la proportion d'activités manquantes.

Un taux de couverture inférieur à 100% signifie que toutes les activités d'APD/AP n'ont pas été notifiées dans le SNPC.

Certains taux peuvent être supérieurs à 100% en raison d'une allocation géographique plus fine dans le SNPC. Aussi, lorsque les engagements n'ont pas été notifiés au CAD, ce sont les versements qui sont pris en compte lors de la comparaison avec les engagements SNPC.

Pour l'Espagne, la Grèce, l'Irlande et partiellement la France et le Portugal, les dons notifiés au CAD et au SNPC portent sur les versements. Les prêts de l'Espagne et du Portugal, ainsi que toutes les données du Royaume-Uni sont également notifiés au CAD sur la base des versements.

**2003 coverage of CRS aid activities by donor: DAC countries**

All countries reported to the CRS in 2003, except Luxembourg.

**2003 coverage of CRS aid activities by donor: multilateral institutions**

Data are complete on ODA/OA loans by the World Bank, the regional banks (the Inter-American Development Bank, the Asian Development Bank, the African Development Bank) and the International Fund for Agricultural Development.

For the European Communities, DAC member, the data are complete and cover grant commitments by the European Development Fund, loans by the European Investment Bank (EIB) and grants financed from the Commission budget.

For the United Nations, the data are complete for the United Nations Children's Fund and the United Nations Population Fund. No data are yet available on aid extended through other United Nations agencies.

**Couverture SNPC des activités d'aide par donneur en 2003 : pays du CAD**

Tous les pays ont notifié dans le SNPC en 2003, sauf le Luxembourg.

**Couverture SNPC des activités d'aide par donneur en 2003 : institutions multilatérales**

Les données sont complètes sur les prêts d'APD/AP de la Banque mondiale, des banques régionales de développement (Banque interaméricaine de développement, Banque asiatique de développement, Banque africaine de développement) et du Fonds international de développement agricole.

Pour la Communauté européenne, membre du CAD, les données sont complètes et couvrent les dons du Fonds européen de développement (FED), les prêts de la Banque européenne d'investissement (BEI) et les dons financés par le budget régulier de la Commission.

Pour les Nations unies, les données sont complètes pour le Fonds des Nations unies pour l'enfance et pour le Fonds des Nations Unies pour la population. Les données sur l'aide par les autres agences des Nations unies ne sont pas encore disponibles.

### **III. Summary tables and charts on aid flows to Asia**

In order to complement the information on individual aid activities, the following charts and tables show aggregate data. They give an overview of aid to America, and compare it with aid to other regions.

All data include aid recipients from Part I and II of the DAC List (see Annex 3). Charts 1 and 2 and tables 1-3 below are aggregated data from DAC statistics on ODA/OA net disbursements. In DAC statistics, all donors refer to bilateral donors, multilateral agencies and Arab donors.

Charts 3-5 and tables 4 and 5 on sectoral breakdown of aid were obtained by aggregating CRS individual aid activities.

### **III. Tableaux et graphiques de synthèse sur les apports d'aide en Asie**

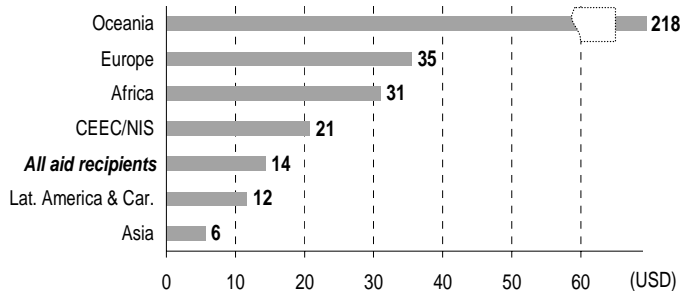

Afin de compléter les informations sur les activités individuelles d'aide, les tableaux et graphiques ci-dessous présentent des données agrégées. Ils donnent une vue d'ensemble des apports d'aide en Amérique, et les mettent en perspective avec les apports d'aide aux autres régions.

Toutes les données prennent en compte les pays bénéficiaires d'aide de la Partie I et II de la Liste du CAD (voir l'Annexe 3). Les graphiques 1 et 2 et les tableaux 1-3 présentent des données agrégées dérivées des statistiques du CAD sur les versements nets d'APD/AP. Dans les statistiques du CAD, l'ensemble des donateurs regroupe les donateurs bilatéraux, les organismes multilatéraux et les donateurs Arabes.

Les graphiques 3-5 et les tableaux 4 et 5 sur l'aide par secteur ont été obtenus par agrégation des activités d'aide individuelles du SNPC.

### III.3. Sectoral distribution of aid to Latin America and the Caribbean / Distribution sectorielle des apports d'aide en Amérique latine et dans les Caraïbes

Chart 3: Sectoral breakdown of aid by region, commitments, 2002-2003 average /  
Répartition sectorielle de l'aide par région, engagements, moyenne 2002-2003

As only a proportion of aid can be allocated to sectors, the denominator for measuring aid to specific sectors should comprise only aid that can be so apportioned. Otherwise there is an implicit assumption that none of the aid unallocable by sector benefits the specific sectors under review. The denominator used in columns (a) of tables 4 and 5, and in charts 4 and 5 is "sector-allocable aid", i.e. aid excluding categories such as general programme assistance (structural adjustment, food aid, budget and balance-of-payments support), emergency aid, debt reorganisation and administrative costs of donors.

Comme seule une partie de l'aide peut être allouée par secteur, le dénominateur servant à mesurer la part de l'aide à des secteurs spécifiques ne devrait comprendre que l'aide qui peut être effectivement allouée par secteur. Sinon, on fait implicitement l'hypothèse qu'aucune aide non ventilable par secteur ne profite aux secteurs spécifiques étudiés. Le dénominateur utilisé dans la colonne (a) des tableaux 4 et 5 ainsi que dans les graphiques 4 et 5 est « l'aide ventilable par secteur », c'est-à-dire l'aide excluant les catégories comme l'aide programme (aide à l'ajustement structurel, aide alimentaire, aide budgétaire et à la balance des paiements), l'aide d'urgence, les réaménagements de la dette et les coûts administratifs des donateurs.

## ANNEX 2. List of CRS sectors

### The Purpose of Aid

The DAC statistics on the purpose of aid cover the sector of destination and the policy objective(s) of aid. Data are collected on individual commitments in the Creditor Reporting System (CRS), and in the form of annual commitment aggregates in the DAC Questionnaire.

The **sector of destination** of a contribution is selected by answering the question "which specific area of the recipient's economic or social structure is the transfer intended to foster". Some contributions are not susceptible to allocation by sector are classified as non-sector allocable aid.

The **policy objectives** of aid contributions are tracked across all sectors. Presently, data are collected on Gender equality incorporating Women in development, Aid to environment, Direct assistance to poor people, and Participatory Development/Good Governance. A distinction is made between contributions not targeted to the objective, or that target it as "a significant objective" or as "a principal objective".

The CRS and the DAC purpose classifications are related. The content of the DAC sector classification is defined through the CRS purpose codes. As a consequence, the DAC aggregate statistics can be linked up with the more detailed CRS data, thereby allowing for examination of the geographical and purpose distribution of aid simultaneously.

## ANNEXE 2. Liste des secteurs SNPC

### L'objet de l'aide

Les statistiques du CAD sur l'objet de l'aide recouvrent le secteur de destination ainsi que le ou les objectif(s) de la politique de l'aide. La notification s'effectue transaction par transaction dans le Système de notification des pays créanciers (SNPC) et sous forme d'agrégats annuels d'engagements dans le questionnaire du CAD.

La réponse à la question « dans quels domaines particuliers de l'économie ou de la structure sociale du pays bénéficiaire ce transfert va-t-il stimuler le développement ? » détermine le **secteur de destination** d'un projet d'aide. Certaines contributions ne peuvent être ventilées par secteur et sont notifiées comme contributions non imputables par secteur.

Les **objectifs de la politique de l'aide** couvrent tous les secteurs. Des données sont actuellement collectées sur « l'égalité hommes-femmes incorporant la participation des femmes au développement », « l'aide à l'environnement », « l'assistance directe aux plus démunis » et « développement participatif/bonne gestion des affaires publiques ». Une distinction est faite entre les contributions qui « ne sont pas orientées vers l'objectif », celles pour lesquelles « l'objectif est significatif » et celles pour lesquelles « l'objectif est principal ».

Les classifications SNPC et CAD sont apparentées. La classification sectorielle du CAD est définie à travers les codes secteurs du SNPC. En conséquence, les montants agrégés dans les statistiques du CAD peuvent être liés avec les données plus détaillées du SNPC, permettant un examen simultané de la répartition géographique et sectorielle de l'aide.
