Foreword

The OECD Review of Fisheries 2012: Country Statistics contains fisheries statistics and overview tables for OECD countries and non-member economies that participate in the OECD Fisheries Committee.

The data cover the years 2003 to 2010. Information is provided on fishing fleets, employment in fisheries and aquaculture, fish landings, production from aquaculture, recreational fisheries, government financial transfers, and trade in fish and fish products.

The data provided here is collected by the OECD using the methodologies established by the Coordinating Working Party on Fishery Statistics (CWP) (www.fao.org/fishery/cwp/search/en). This interagency body, created in 1960 to develop common procedures for the collation of statistics, provides technical advice on fishery statistical matters and facilitates the publication of methodological and reference documents. Its Handbook of Fishery Statistical Standards provides definitions of the various concepts used in fishery statistics, with the exception of “Government Financial Transfers” which is unique to the OECD. Otherwise, all statistics are based on CWP definitions.

The OECD is the only organisation to collect and disseminate data concerning Government Financial Transfers (GFT). These transfers are defined as “the monetary value of government interventions associated with fisheries policies” and cover transfers from central, regional and local governments. GFTs are indicators of financial support paid to the fisheries sector by government and are classified under one of three headings:

1. Direct payments by government to fishers, which are primarily directed at increasing the income of fishers.
2. Cost reducing transfers, which are aimed at reducing the costs of fixed capital and variable inputs.
3. General services, which are transfers paid by government not necessarily received directly by fishers, but which nevertheless reduce the costs faced by fishers.

For more information on government financial transfers, see OECD (2006), Financial Support to Fisheries: Implications for Sustainable Development, available at <http://dx.doi.org/10.1787/9789264036642-en>.

Analytical work by OECD on fisheries is carried out by the Committee for Fisheries and covers a wide range of issues related to fisheries and aquaculture management, resource conservation, trade and green growth. For additional information on the work of the OECD related to fisheries, see www.oecd.org/tad/fisheries.

Main country groupings

In the International Comparison tables provided in *OECD Review of Fisheries: Country Statistics 2012*, data are given for individual member countries as well as for a selection of non-member economies: Argentina, Chinese Taipei and Thailand.

OECD countries: Australia, Belgium, Canada, Chile, Denmark, Estonia, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Korea, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Spain, Sweden, Turkey, United Kingdom, United States.

Non-member Economies: Argentina, Chinese Taipei, Thailand.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

OECD Review of Fisheries

COUNTRY STATISTICS

This publication contains statistics on fisheries and aquaculture in OECD countries from 2003 to 2010. Information is provided on government financial transfers, total allowable catches, landings, employment, fleet capacity and aquaculture production.

Analytical work by the OECD on fisheries is carried out by the Committee for Fisheries and covers a wide range of issues related to management, resource conservation, trade and sustainable development.

OECD COUNTRIES COVERED

Australia, Belgium, Canada, Chile, Denmark, Estonia, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Korea, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Spain, Sweden, Turkey, United Kingdom, United States

NON-MEMBER ECONOMIES COVERED

Argentina, Chinese Taipei, Thailand
