ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Commission takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

OECD Labour Force Statistics

This annual edition of *Labour Force Statistics* provides detailed statistics on population, labour force, employment and unemployment, broken down by gender, as well as unemployment duration, employment status, employment by sector of activity and part-time employment. It also contains participation and unemployment rates by gender and detailed age groups as well as comparative tables for the main components of the labour force. Data are available for each OECD member country and for OECD-Total, euro area and European Union. The time series presented in the publication cover 10 years for most countries. It also provides information on the sources and definitions used by member countries in the compilation of those statistics.
