ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

OECD Institutional Investors Statistics

2008-2015

Institutional investors (investment funds, insurance companies and pension funds) are major collectors of savings and suppliers of funds to financial markets. Their role as financial intermediaries and their impact on investment strategies have grown significantly over recent years along with deregulation and globalisation of financial markets.

This publication provides a unique set of statistics that reflect the level and structure of the financial assets and liabilities of institutional investors in the OECD countries (with the exception of Australia and Slovak Republic), and in Lithuania and the Russian Federation. Concepts and definitions are predominantly based on the System of National Accounts. Data are derived from national sources.

Data include outstanding amounts of financial assets and liabilities such as currency and deposits, securities, loans, and shares. When relevant, they are further broken down according to maturity and residency. The publication covers investment funds, of which open-end companies and closed-end companies, as well as insurance corporations and autonomous pension funds. Indicators are presented as percentages of GDP allowing for international comparisons, and at country level, both in national currency and as percentages of total financial assets of the investor. Time series display available data for the last eight years.

ALSO AVAILABLE ON LINE

The data in this publication are also available on line via www.oecd-ilibrary.org under the title *OECD Institutional Investors Statistics* (<http://dx.doi.org/10.1787/instinv-data-en>).
