1. Taxes on production and imports, receivable for general government and central government includes the whole amount of VAT revenues collected in the country. Transfers to the EU institutions based on the harmonised VAT assessment bases after exclusion of UK rebate, are recorded by other Member States directly as VAT revenue of the EU institutions (outside general government sector). For Denmark these transfers increase value of Other current transfers, payable for general government and central government.
2. Property income is not consolidated.

- The central government debt assumption 2008 of 1.3 billion euro in 2008 is included in capital transfers.
- In 2010, the Irish government made massive capital transfers to Anglo Irish Bank, Irish Nationwide Building Society and EBS Building Society, which had a very big impact on government net lending and on total general government expenditure figures.

1. Total population as of October, 1st. These data come from the Population estimates, and economically active population data and unemployed persons come from the 'Labour Force Survey' (Ministry of internal affairs).
2. Data in terms of jobs instead of persons.
3. Total employment less Employees. (Including unpaid family workers).
4. Hours data are estimated by multiplying *Hours worked per jobs* by *Jobs*, based on different classification of the economic activity.

1. It should also be noted that so far, no consolidation of flows between Member States is done in aggregating to EU levels. This means in particular that the level of exports and imports for the EU (or euro area) includes flows within the EU (or euro area). The external balance however is not affected, because the non-consolidated flows in exports and imports cancel each other out in the balance.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Commission takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

National Accounts of OECD Countries

DETAILED TABLES

2009-2016

The *National Accounts of OECD Countries, Detailed Tables* includes, in addition to main aggregates including GDP, final consumption expenditure of households by purpose, simplified accounts for three main sectors: general government, corporations and households. Data are shown for 35 OECD countries and the Euro area back to 2007. Country tables are expressed in national currency. Data are based on the System of National Accounts 2008 (2008 SNA) for all countries.

The data in this publication are also available on line via www.oecd-ilibrary.org under the title OECD National Accounts Statistics (<http://dx.doi.org/10.1787/na-data-en>).
