## Readers' guide

### Main features

The STAN database is primarily based on member countries' latest annual national accounts by economic activity statistics compiled according to the System of National Accounts 2008 (SNA08). Any estimates required for earlier years are based on previous vintages of STAN or SNA statistics (e.g. SNA93) while missing detail is estimated using data from other sources such as results from national industry surveys or censuses. In STAN, many data points are estimated and are flagged as such; they do not represent official member countries' submissions.

The latest STAN uses an industry list based on ISIC Rev.4. This PDF publication presents data, as of July 2018, for six measures of industrial performance covering the years 2009-2016 for all 36 OECD member countries. For more information on the STAN database, see <http://oe.cd/stan>.

## **ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT**

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

## OECD STRUCTURAL ANALYSIS STATISTICS

2009-2016

*STAN: OECD Structural Analysis Statistics 2018* provides analysts and researchers with a comprehensive tool for analysing industrial performance across countries. The publication includes the following annual measures: production, value added (at current and constant prices), gross fixed capital formation, number engaged and labour compensation. Data are presented in national currency for current price data, in terms of the current price value in the reference year (2010) for volume data and in number of persons for employment data. Coverage is provided for 36 OECD countries and for multiple sectors, with extended coverage of service sectors according to SNA08/ISIC Revision 4 classification.
