## *Introduction*

A1. This book continues a series, previously titled “Geographical Distribution of Financial Flows to Aid Recipients”, which began in 1977. The data cover:

- net and gross disbursements;
- commitments;
- terms; and
- the sector/purpose allocation of bilateral Official Development Assistance (ODA) commitments

for around 150 developing countries and territories from 2013 to 2019, with data on key indicators to provide perspective in interpreting the resource flow information for each. The aim has been to present a comprehensive record of the external financing of each country shown. The data show the transactions of each recipient country with:

- i.* DAC member countries (individually or as a group);<sup>1</sup>
- ii.* multilateral agencies (individually or as a group);
- iii.* other providing countries;
- iv.* philanthropic foundations (private donors).

A2. The member countries of the OECD Development Assistance Committee for which data are presented are: Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Korea, Luxembourg, the Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, the United Kingdom and the United States. Data for the EU Institutions (EU Institutions – taken to include the European Investment Bank), which is also a member of the DAC, are included under “multilateral agencies”. A further separate line (EU Institutions + DAC EU members) gives the sum of multilateral flows from the EU Institutions and total bilateral flows from the 20 European Union member countries that were also DAC members in 2019. The data on financial flows from multilateral sources cover the World Bank (including IBRD, IDA, IFC and the Trust Funds for the Global Environment Facility and the Montreal Protocol), IDB, Adaptation Fund, AfDB, AsDB, BADEA, CarDB, Central Emergency Response Fund, Council of Europe Development Bank, Climate Investment Funds, Development Bank of Latin America, EBRD, EC, IFAD, Islamic Development Bank, GAVI, the Global Fund, concessional flows from the IMF, the Global Green Growth Institute, Nordic Development Fund, OFID, OSCE and WHO. The technical assistance and relief agencies of the United Nations cover mainly the following programmes or agencies: FAO, IAEA, ILO, UNAIDS, UNECE, UNEP, UNFPA, UNDP, UNHCR, UNICEF, UNRWA, UNWTO, WFP and the activities in developing countries funded from the regular budgets of other agencies.

1. Additional aggregate data can be found on the OECD Web site at: <https://oe.cd/fsd>.

**Sources of data**

A3. DAC bilateral flow figures are drawn from replies from member countries to questionnaires issued by the OECD Secretariat. Multilateral agencies also provide their data on a questionnaire issued by the OECD Secretariat. The coverage of flows from other providing countries varies over the years. In 2019, these data include flows from Azerbaijan, Bulgaria, Croatia, Cyprus, Estonia, Israel, Kazakhstan, Kuwait, Latvia, Liechtenstein, Lithuania, Malta, Qatar, Romania, Russia, Saudi Arabia, Chinese Taipei, Thailand, Turkey and the United Arab Emirates. The data for these countries and territories have been classified and processed as far as possible according to DAC norms and definitions.<sup>2</sup>

A4. Thirty-eight philanthropic foundations reported their development co-operation activities in 2019: Arcadia Fund, Arcus Foundation, BBVA Microfinance Foundation, Bernard van Leer Foundation, Bill & Melinda Gates Foundation, Carnegie Corporation of New York, Charity Projects Ltd (Comic Relief), Children's Investment Fund Foundation, Citi Foundation, Conrad N. Hilton Foundation, David & Lucile Packard Foundation, Ford Foundation, Gatsby Charitable Foundation, Gordon and Betty Moore Foundation, Grameen Crédit Agricole Foundation, H&M Foundation, IKEA Foundation, Jacobs Foundation, John D. & Catherine T. MacArthur Foundation, La Caixa Banking Foundation, Laudes Foundation, LEGO Foundation, Margaret A. Cargill Foundation, MasterCard Foundation, MAVA Foundation, McKnight Foundation, MetLife Foundation, Michael & Susan Dell Foundation, Oak Foundation, Omidyar Network Fund, Inc., Rockefeller Foundation, Wellcome Trust, William & Flora Hewlett Foundation, World Diabetes Foundation and the United Postcode Lotteries (Dutch Postcode Lottery, Norwegian Postcode Lottery, People's Postcode Lottery and Swedish Postcode Lottery).

**Comprehensiveness**

A5. The resource flow data shown are based on records that are comprehensive for the majority of the individual categories shown. The main omissions are:

- a) Private sector flows from non-DAC donors.

**Unallocated amounts**

A6. A comprehensive total reported by a source usually includes a "geographically unallocated" component. This is excluded from the data for individual recipients in Section B, which also includes tables for "unallocated" and "all recipients combined". Administrative costs, in-donor refugee costs, which are mainly incurred in the donor country, or research performed in the donor country for the benefit of developing countries (e.g., tropical diseases), are examples of flows that are not allocated by recipient country. Another portion reflects defective data collection procedures, or the effect of confidentiality restrictions requiring the non-disclosure of the identity of a partner country. For official sector transactions by DAC members and multilateral organisations, geographically unallocated amounts are too small in aggregate to cause a substantial understatement of the figure for a given recipient country. However, for private sector flows, there may be a fairly large understatement of a given country's net inflow. This is true of:

- a) countries hosting investment in the oil sector;

2. See Annex: Definition of concepts used in this Report.

- b) countries hosting investment from reporters whose data include large geographically unallocated amounts (in particular Australia, Canada, the Netherlands and New Zealand);
- c) countries whose investment inflows from DAC members have been channelled via an offshore centre which, while shown as the destination of the transactions concerned, is not itself a reporter to DAC.

## Presentation

A7. The report consists of three sections:

### **Section A**

A8. This section contains tables covering the period 2013 to 2019. They show the receipts of each country or territory on the DAC List of ODA Recipients from DAC countries combined and all sources combined, respectively, of:

- a) Official Development Assistance: Net disbursements (these flows only are also shown for each DAC member country separately).
- b) Total resource flows: Net disbursements.
- c) Official Development Assistance: Commitments.

### **Section B**

A9. Section B presents flows to developing countries and territories with a page of data for each recipient country. There is also a series of tables giving the same information for various income and geographical groupings of developing countries. Population, GNI per capita and other indicator data can be found at the end of each table.

## Coverage

### **Detailed tables for individual recipients by origin of resources**

A10. The individual country tables in Section B contain information blocks showing the following types of flow by origin:

1. Total receipts net.
2. Total ODA net (including concessional flows of multilateral agencies).
3. ODA loans gross.
4. Grants.
5. Bilateral ODA commitments by purpose.
6. Reference section: Indicators.

Blocks 1-4 are on a disbursement basis. Block 5 is on a commitment basis.

A11. In each table, flows from individual DAC members and multilateral agencies are shown separately along with sub-totals for DAC members and multilateral agencies, for other providing countries combined (see paragraph 3) and for the EU Institutions and DAC EU members combined. The IMF figures are for concessional loans from the IMF Trust Fund only, and do not include recourse to IMF tranche drawings. Loans by banks resident in each DAC member country are included indistinguishably in the "Total Receipts Net" block.

A12. The sectoral distribution of bilateral ODA commitments shown in block 5 refers to the economic sector of destination (i.e. the specific area of the recipient's economic or social structure whose development is, or is intended to be, fostered by the aid) rather than to the

type of goods or services provided. These are aggregates of individual projects notified under the Creditor Reporting System. Their completeness may in each case be assessed by comparing the total figures in block 5 with the figures in block 6 for ODA commitments of DAC members combined. The contents of the headings are as follows:

### **Social infrastructure and services**

This main category covers efforts to develop the human resource potential and ameliorate living conditions in developing countries. It includes but is not limited to:

**Education:** Educational infrastructure, services and investment in all areas. Specialised education in particular fields such as agriculture or energy is reported against the sector concerned.

**Health and population:** Assistance to hospitals and clinics, including specialised institutions such as those for tuberculosis, maternal and child care; other medical and dental services, including disease and epidemic control, vaccination programmes, nursing, provision of drugs, health demonstration, etc.; public health administration and medical insurance programmes; reproductive health and family planning.

**Water supply, sanitation and sewerage:** All assistance given for water supply, use and sanitation, river development, but excluding irrigation systems for agriculture.

### **Economic infrastructure and services**

This major heading covers assistance for networks, utilities and services that facilitate economic activity. It includes, but is not limited to:

**Energy:** Production and distribution of energy, including peaceful use of nuclear energy.

**Transport and communications:** Equipment or infrastructure for road, rail, water and air transport, and for television, radio and electronic information networks.

### **Production sectors**

This main heading groups contributions to all directly productive sectors. It comprises:

**Agriculture:** Crop and livestock development, provision of production requisites such as farm machinery and fertiliser, irrigation, pest control, veterinary services; services to the agricultural sector, fishing and forestry (including tree crops); conservation and extension, land reclamation; land and soil surveys, land and water use; agricultural construction; storage and transport facilities. Agricultural development banks are included under this heading.

**Industry, mining and construction:** Assistance to extractive and manufacturing industries of all kinds, including prospecting and geological surveys, development and refining of petroleum and ores, processing of food and other agricultural products, manufacture of fertilisers and farm machinery, cottage industry and handicrafts and non-agricultural storage and warehousing.

**Trade and tourism:** Export promotion, trade, commerce and distribution; banking (including industrial development banks) and hotel and other tourist facilities.

### **Multisector**

Support for projects which straddle several sectors, with a concentration on the environment and urban and rural development.

**Programme assistance**

All general developmental contributions other than debt reorganisation, made available with no pre-imposed sector allocation, e.g., balance of payments and budget support and funds made available for capital projects at the recipient's choice, but not subject to agreement by the donor. This item includes in particular, sector-unallocated structural adjustment assistance, and:

*Food aid:* Supplies of food under bilateral programmes.

**Action relating to debt**

Debt forgiveness, rescheduling, refinancing, etc.

**Humanitarian aid**

Humanitarian aid in cash or in kind, including relief food aid.

**Other and unallocated/unspecified**

Aid which cannot be assigned to another part of the table, and in the case of project or sector assistance, commitments for which the sectoral destination had not been specified. Includes aid to non-governmental organisations, administrative costs and aid to refugees in donor countries.

A13. In addition to this sectoral information, block 6 includes data on aggregate flows of *Technical co-operation*. This is defined as activities whose primary purpose is to augment the level of knowledge, skills, technical know-how or productive aptitudes of the population of developing countries, i.e., increasing their stock of human intellectual capital, or their capacity for more effective use of their existing factor endowment. Accordingly, the figures relate mainly to activities involving the supply of human resources (teachers, volunteers, experts in various sectors) and action targeted on human resources (education, training, advice). The supply of expertise designed primarily to support the implementation of capital projects ("Investment-related technical co-operation") is not included under this heading.

**Reference section: Indicators**

A14. Further data for each recipient country are shown for a number of resource flow aggregates, for which detailed information by source is not given in the other blocks of the table. The additional data cover the main classes of private sector transactions of DAC member country residents, disbursements of OOF, ODA commitments and disbursements by philanthropic foundations. A number of relevant indicators has also been included; the source of these data is mainly the World Bank.

**Concepts and interpretation of data**

A15. A note on the main concepts used in this report and remarks on specific features of the data will be found at the end of the volume.

N.B.: The DAC List of ODA Recipients reproduced at the end of this volume is designed for statistical purposes, not as guidance for eligibility for aid or other preferential treatment. Any reference in the List or elsewhere in this publication to States, entities or territories shall neither imply recognition by OECD member States nor approval by OECD member States of the designations used. The designation “countries” is used as a generic term in its own right covering both “countries” and “territories” and does not carry any special meaning as to the political or legal classification of the recipients concerned.

## Introduction

A1. Cette publication s'inscrit dans la série des ouvrages publiés depuis 1977 et précédemment sous le titre « Répartition géographique des ressources financières allouées aux pays bénéficiaires de l'aide ». Les données portent sur les éléments suivants :

- versements nets et bruts ;
- engagements ;
- conditions financières ; et
- ventilation par secteur/objet des engagements bilatéraux d'aide publique au développement (APD) ;

elles couvrent environ 150 pays et territoires en développement et concernent les années 2013 à 2019 ; elles sont complétées par des indicateurs essentiels pour remettre en perspective les informations sur les apports de ressources à chaque pays. L'objectif poursuivi ici est de présenter un tableau complet du financement externe de chacun des pays considérés. Les données retracent les opérations entre chaque pays bénéficiaire et :

- i.* les pays membres du CAD (isolément ou dans leur ensemble)<sup>3</sup> ;
- ii.* les organismes multilatéraux (isolément ou dans leur ensemble) ;
- iii.* les autres pays fournisseurs ;
- iv.* les fondations philanthropiques (donneurs privés).

A2. Les pays membres du Comité d'aide au développement de l'OCDE pour lesquels des données sont présentées sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, la Corée, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, la Hongrie, l'Irlande, l'Islande, l'Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, la Pologne, le Portugal, les Républiques slovaque et tchèque, le Royaume-Uni, la Slovénie, la Suède et la Suisse. Les données relatives aux Institutions de l'UE, qui est aussi membre du CAD, sont intégrées dans les chiffres concernant les « organismes multilatéraux ». Les tableaux comportent une ligne supplémentaire (Institutions de l'UE + membres du CAD-UE) qui indique la somme des apports multilatéraux des Institutions de l'UE et des apports bilatéraux des 20 États membres de l'Union européenne qui étaient membres du CAD en 2019. Les données relatives aux apports financiers en provenance de sources multilatérales se rapportent aux organismes suivants : BADEA, BAfD, BAfD, Banque de développement de l'Amérique latine, Banque de développement du Conseil de l'Europe, Banque islamique de développement, Banque mondiale, (y compris l'IDA, la BIRD, la SFI et les fonds fiduciaires pour la Facilité pour l'environnement mondial et le Protocole de Montréal), BERD, BID, CARIBANK, CE, FIDA, FODI, Fonds d'adaptation, Fonds central d'intervention d'urgence, Fonds d'investissement climatique, GAVI, l'Institut mondiale de la croissance verte, le Fonds mondial, et comprennent les apports concessionnels du FMI, le Fonds nordique de développement,

l'OSCE et l'OMS. Les organismes d'assistance technique et de secours des Nations Unies comprennent essentiellement les programmes ou organismes suivants : AIEA, FAO, ONUSIDA, CEE-ONU, OIT, UNFPA, UNRWA, FNUAP, HCR, PAM, PNUD, PNUE, UNICEF, UNWTO, et les activités dans les pays en développement financées sur le budget normal d'autres institutions.

### **Sources des données**

A3. Les chiffres concernant les apports bilatéraux des membres du CAD sont tirés des réponses fournies par les pays membres aux questionnaires que leur adresse le Secrétariat de l'OCDE. Les données sur les apports multilatéraux sont notifiées par les organisations sur des questionnaires fournis par le Secrétariat de l'OCDE. La couverture des apports des autres pays fournisseurs varie selon les années. Sont comprises en 2019 les données de l'Arabie saoudite, l'Azerbaïdjan, de la Bulgarie, de Chypre, de la Croatie, des Émirats arabes unis, de l'Estonie, d'Israël, du Kazakhstan, du Koweït, de la Lettonie, du Liechtenstein, de la Lituanie, de Malte, du Qatar, de la Roumanie, de la Russie, du -Taipei chinois, de la Thaïlande, et de la Turquie. Les données relatives à ces pays et territoires sont classées et traitées de manière à les rendre dans toute la mesure du possible conformes aux normes et définitions du CAD<sup>4</sup>.

A4. Trente-huit fondations ont notifié les données sur leur activités de la coopération de développement : Carnegie Corporation of New York, Charity Projects Ltd (Comic Relief), Children's Investment Fund Foundation, Fondation Arcus, Fondation Bernard van Leer, Fondation Bill et Melinda Gates, Fondation Citi, Fondation Conrad N. Hilton, Fondation Ford, Fondation Gordon et Betty Moore, Fondation Grameen Crédit Agricole, Fondation H&M, Fondation IKEA, Fondation Jacobs, Fondation John D. et Catherine T. MacArthur, Fondation la Caixa, Fondation Laudes, Fondation LEGO, Fondation Margaret A. Cargill, Fondation MasterCard, Fondation McKnight, Fondation MetLife, Fondation Michael et Susan Dell, Fondation Microfinance BBVA, Fondation Oak, Fondation Rockefeller, Fondation William et Flora Hewlett, Fonds Arcadia, Gatsby Charitable Foundation, MAVA, Fondation pour la nature, Omidyar Network Fund, Inc., Wellcome Trust, World Diabetes Foundation et les United Postcode Lotteries (Dutch Postcode Lottery, Norwegian Postcode Lottery, People's Postcode Lottery and Swedish Postcode Lottery).

### **Couverture des données**

A5. Les données sur les apports de ressources sont tirées de séries qui recouvrent la quasi-totalité des opérations dans chacune des catégories présentées. Y sont omis, pour l'essentiel, les éléments suivants :

- i. les apports privés en provenance des pays non membres du CAD ;
- ii. les dons des organismes privés bénévoles, pour lesquels on ne dispose d'aucune ventilation géographique.

### **Montants non ventilés**

A6. Les chiffres totaux mentionnés dans une source comportent habituellement une composante regroupant les apports « non ventilés sur le plan géographique ». Ces derniers sont exclus des données par pays bénéficiaire présentées dans la section B mais ils sont pris en compte dans les tableaux « Non ventilé » et « Ensemble des bénéficiaires ». À titre d'exemple de ce genre d'apports, on peut citer les dépenses administratives, les coûts des

réfugiés dans les pays donateurs, qui sont supportées principalement sur le territoire du pays donneur, ou des dépenses encourues dans le pays donneur au profit de l'ensemble des pays en développement (pour la recherche sur les maladies tropicales). Une autre partie tient aux lacunes des méthodes de collecte ou à des règles de confidentialité qui empêchent de divulguer le nom du pays partenaire. Dans le cas des opérations du secteur public des membres du CAD et des organismes multilatéraux, le montant des apports non ventilés sur le plan géographique est globalement trop faible pour entraîner une sous-estimation significative du chiffre relatif à un pays bénéficiaire. Par contre, pour les apports du secteur privé, il se peut que les recettes nettes d'un pays soient largement sous-estimées, en particulier s'il s'agit :

- a) d'un pays où des investissements sont effectués dans le secteur pétrolier ;
- b) d'un pays accueillant des investissements de pays notificateurs dont les données incluent un montant important d'apports non ventilés sur le plan géographique (Australie, Canada, Nouvelle-Zélande, Pays-Bas) ;
- c) d'un pays où les investissements des membres du CAD passent par l'intermédiaire d'un centre financier offshore qui, bien qu'apparaissant comme la destination de l'opération, ne soumet pas lui-même de notification au CAD.

## Présentation

A7. Le rapport comprend trois sections :

### **Section A**

A8. Cette section contient des tableaux couvrant la période 2013 à 2019. Ces tableaux indiquent, pour chaque pays ou territoire en développement figurant dans la Liste des bénéficiaires d'APD reproduite à la fin du présent ouvrage :

- a) les versements nets d'aide publique au développement (seuls ces versements sont également montrés pour chaque membre du CAD individuellement) ;
- b) les apports totaux de ressources sur la base des versements nets, en provenance, d'une part, de l'ensemble des pays du CAD et, d'autre part, de toutes sources confondues ;
- c) les engagements d'aide publique au développement.

### **Section B**

A9. Dans la section B sur les apports aux pays et territoires en développement, chaque pays bénéficiaire se voit allouer une page. On trouvera également une série de tableaux reprenant les mêmes informations pour divers groupes de pays en développement classés par catégorie de revenu et par région géographique. Des données sur la population, le RNB par habitant et d'autres indicateurs sont fournies à la fin de chaque tableau.

### **Couverture**

#### ***Tableaux détaillés présentant pour les différents pays bénéficiaires les ressources reçues, ventilées par origine***

A10. Les tableaux par pays fournis dans la section B contiennent chacun des pavés dans lesquels sont récapitulés les catégories suivantes d'apports par origine :

1. Apports totaux nets.

2. APD totale nette (y compris les apports assortis de conditions libérales des agences multilatérales).
3. Prêts d'APD bruts.
4. Dons.
5. Engagements d'APD bilatérale, par objet.
6. Pour mémoire : indicateurs.

Les chiffres fournis dans le pavé 5 sont exprimés sur la base des engagements ; ceux présentés dans les pavés 1-4 sont exprimés sur la base des versements.

A11. Dans chaque tableau, les apports des différents membres du CAD et des institutions multilatérales sont indiqués séparément, avec des sous-totaux concernant, respectivement, l'ensemble des membres du CAD, l'ensemble des organismes multilatéraux, l'ensemble des autres pays fournisseurs (voir paragraphe 3) et la Commission européenne et les États membres du CAD-UE. Les chiffres relatifs au FMI portent uniquement sur les prêts du Fonds fiduciaire et les opérations du FAS et du FRPC et excluent les tirages sur les tranches nationales auprès du FMI. Les prêts consentis par les banques ayant leur siège dans chaque pays membre du CAD sont inclus avec les autres dans les données du pavé « Recettes totales, nettes ».

A12. La ventilation sectorielle des engagements d'APD bilatérale, présentée dans le pavé 5, indique le secteur économique de destination (c'est-à-dire le secteur spécifique de l'économie ou la structure sociale du pays bénéficiaire dont l'aide favorise ou est destinée à favoriser le développement), et non le type des biens ou services fournis au bénéficiaire. Les montants indiqués correspondent aux agrégats des projets individuels du Système de Notification des Pays Créanciers. Leur fiabilité peut être vérifiée dans chaque cas en comparant le total des données du pavé 5 avec les données du pavé 6 relatives aux engagements d'APD par l'ensemble des pays du CAD. On trouvera ci-après une description de ce que recouvrent précisément les différentes rubriques :

### **Infrastructure et services sociaux**

Cette grande catégorie rend essentiellement compte des efforts faits pour mettre en valeur le potentiel des ressources humaines des pays en développement et améliorer les conditions de vie. Elle comprend entre autres :

Éducation : infrastructure, services et investissements dans l'éducation. La formation portant sur un domaine particulier, comme l'agriculture ou l'énergie, sera classée en regard du secteur intéressé.

Santé et population : aide destinée aux hôpitaux et dispensaires, y compris les établissements spécialisés comme les sanatoriums pour tuberculeux ; la protection maternelle et infantile ; les autres services médicaux et dentaires, y compris la lutte contre les maladies et les épidémies, les programmes de vaccination, les soins infirmiers, la fourniture de médicaments, les services de démonstration relatifs à la santé, etc. ; l'administration de la santé publique et les programmes d'assurance-maladie ; la santé génésique et le planning familial.

### **Infrastructure et services économiques**

Cette grande catégorie regroupe l'aide fournie pour l'infrastructure et les services qui facilitent l'activité économique. Elle comprend entre autres :

*Distribution d'eau et assainissement* : toutes les formes d'aide fournie pour la distribution d'eau, son utilisation et l'assainissement ; l'aménagement des bassins fluviaux, à l'exclusion des systèmes d'irrigation pour l'agriculture.

*Énergie* : production et distribution d'énergie, y compris les utilisations pacifiques de l'énergie nucléaire.

Transports et communications : fourniture de matériel ou création d'infrastructures pour les transports par route, par rail, par eau et par air, ainsi que pour les réseaux d'information radio et télévision.

### **Secteurs de production**

Sous ce titre sont groupés les apports d'aide à tous les secteurs directement productifs, comprenant :

Agriculture : développement de la culture et de l'élevage, fourniture de moyens de production tels que matériel agricole et engrais, service d'irrigation, de lutte contre les ennemis des cultures, ou vétérinaires ; services agricoles, exploitation forestière (y compris arboriculture) et pêche ; conservation des sols et extension des terres cultivables ; construction de bâtiments agricoles, stockage et moyens de transport pour l'agriculture ; études géodésiques et pédologiques, utilisation des sols et des ressources en eau. Les activités des banques de développement agricoles sont incluses dans cette rubrique.

Industries manufacturières, industries extractives, construction : aide en faveur des industries manufacturières et d'extraction de toutes sortes, y compris les études géologiques et de projection, le développement et le raffinage du pétrole et des minerais, la transformation des produits alimentaires et autres produits agricoles, la fabrication d'engrais et de matériel agricole, l'artisanat et le stockage, et l'entreposage de produits non agricoles.

Commerce et tourisme : promotion des exportations, commerce et distribution ; banques (y compris les banques de développement industriel) et hôtels et autres installations touristiques.

### **Destination plurisectorielle**

Aide en faveur de projets, qui chevauchent plusieurs secteurs et visent essentiellement l'environnement et le développement urbain et rural.

### **Aide-programme**

Toutes les contributions, autres que le réaménagement de la dette, mises à la disposition du bénéficiaire sans affectation préalable à un secteur, par exemple pour le soutien de la balance des paiements ou du budget, les fonds accordés pouvant être consacrés à des projets d'équipement que le bénéficiaire choisit sans solliciter l'accord du donneur. L'aide à l'ajustement structurel non affectée à un secteur est également incluse dans cette rubrique, ainsi que :

Aide alimentaire : fourniture de denrées alimentaires dans le cadre de programmes bilatéraux.

### **Actions se rapportant à la dette**

Toutes les opérations d'annulation, de rééchelonnement ou de refinancement de dettes.

## **Aide humanitaire**

Secours d'urgence, en espèces ou en nature, y compris l'aide alimentaire d'urgence.

## **Autres et non alloué**

Toutes formes d'aide qui ne peuvent pas être portées dans une autre partie du tableau ainsi que, dans le cas de l'aide à des projets ou de l'aide sectorielle, les engagements dont le secteur de destination n'a pas été précisé. Comprend aussi l'aide aux organisations non-gouvernementales, les coûts administratifs et l'aide aux réfugiés dans les pays donateurs.

A13. Pour compléter ces informations sectorielles, le pavé 6 contient des données sur les apports globaux de *coopération technique*. Ceux-ci recouvrent les activités ayant pour but essentiel d'élever le niveau des connaissances, des qualifications, du savoir-faire technique ou des aptitudes productives de la population des pays en développement, c'est-à-dire d'accroître le stock de capital intellectuel de ces pays, ou leur aptitude à utiliser plus efficacement leur dotation en facteurs. En conséquence, il s'agit principalement d'activités comportant l'apport de ressources humaines (enseignants, volontaires, experts) ou d'actions ciblées sur les ressources humaines (enseignement, formation, conseils).

## **Pour mémoire : indicateurs**

A14. Sous cette rubrique figurent, pour chaque pays bénéficiaire, des renseignements supplémentaires sur certaines catégories d'apports de ressources qui ne sont pas ventilées par origine dans les autres pavés. Ces données supplémentaires concernent les principaux types d'opérations entreprises par des résidents des pays membres du CAD relevant du secteur privé ; les autres apports du secteur public (AASP) ; les engagements d'APD souscrits par le secteur public et les versements de fondations philanthropiques. Un certain nombre d'indicateurs figurent également dans cette rubrique. À quelques exceptions près, ces dernières statistiques ont été communiquées par la Banque mondiale.

## **Concepts et interprétation des données**

A15. On trouvera à la fin du présent volume une note récapitulant les principaux concepts utilisés, ainsi que des remarques portant sur des aspects particuliers des données contenues dans le rapport.

*N.B.* : La Liste des bénéficiaires de l'aide publique au développement établie par le CAD, qui est reproduite à la fin du présent ouvrage, est destinée à des fins purement statistiques et n'a pas pour objet d'orienter le choix des pays pouvant bénéficier d'une aide ou d'un autre traitement préférentiel. La mention dans cette Liste, ou à un autre endroit de la présente publication, d'un État, d'une entité ou d'un territoire n'implique ni sa reconnaissance par les pays membres de l'OCDE, ni l'approbation par ces derniers de l'appellation utilisée. Le terme « pays » est employé dans son sens générique pour désigner aussi bien des territoires que des pays et n'a aucune implication particulière pour le classement politique ou juridique des bénéficiaires en cause.

## Editor's Note

1. To make a rough adjustment for exchange rate and price changes for DAC countries combined (i.e. to convert to 2018 constant prices and exchange rates) divide the data for each year by the following coefficients:

2015	2016	2017	2018	2019
0.9502	0.9432	0.9596	1	0.9810

2. As of end 2019, the category “Least Developed Countries” (LDCs) defined by the United Nations comprised 47 countries. The data shown for the group are for all 47 countries, irrespective of the date at which they were included in the category.
3. Data on flows from member countries of the European Union cover the 20 countries that were members of both the EU and the DAC in 2019, regardless of their date of accession to either group.
4. As development finance has evolved over time, variability in donor interpretations regarding the meaning of “concessional in character” has led to reported figures not being endorsed by all the members, with regards to loans extended from funds raised on capital markets without any official public sector direct subsidy.

The DAC agreed in April 2013 that, to ensure transparency, it would present this annex explaining the different views on concessionality. As provided for in that agreement, the rationales of three members, which were noted by the DAC, are shown below. For other members, the practice of ODA reporting remains that loans made from market-raised funds are only reported as concessional if they include an explicit subsidy.

The agreement specifically took note of the rationale presented by the EU, concerning the European Investment Bank (EIB) loans since 2008. It was also agreed that there would be no retroactive changes to loans extended before 2011, and that the DAC agreement would only apply to ODA data from 2011 to 2014. The combined effect of these decisions is that for the period 2008-10, the data on concessional flows shown for EU Institutions relate to grants only, EIB loans appearing as non-concessional; whereas a significant part of EIB loans appears as concessional flows from 2011.

For further information: [www.oecd.org/dac/stats/concessional-note.htm](http://www.oecd.org/dac/stats/concessional-note.htm).

At their High Level Meeting in December 2014, DAC members reached a historic agreement to modernise the measurement of development finance, including the definition of ODA and make important improvements in the system to guarantee a fairer picture of provider effort. Whereas in the past, the face value of both grants and loans was counted as ODA, they agreed that only grants and the “grant portion” of concessional loans would be considered. This provides a more realistic comparison of loans and grants, and encourages the use of grants and highly concessional loans, as these will continue to play a key role in mobilising resources to support the Sustainable Development Goals (SDGs). The new measurement system promotes improved

transparency and accountability, while incentivising more and better targeting of resources.

The new system became the standard for reporting from 2018 data onwards.

## Note de l'éditeur

1. Les déflateurs suivants (facteurs de division), relatifs à l'ensemble des pays du CAD permettront au lecteur d'ajuster approximativement les valeurs ici pour tenir compte de l'effet combiné des variations des taux de change et des prix afin d'obtenir ainsi des montants aux prix et taux de change constants de 2018 :

2015	2016	2017	2018	2019
0.9502	0.9432	0.9596	1	0.9810

2. La catégorie « des pays les moins avancés » (PMA) définie par les Nations Unies comprenait 47 pays en l'an 2019. Les données présentées dans ce rapport pour ce groupe recouvrent l'ensemble de ces 47 pays, quelle que soit la date à laquelle il a été décidé de les inclure dans cette catégorie.
3. Les données sur les flux des pays membres de l'Union européenne se réfèrent aux 20 pays qui étaient membres et de l'UE et du CAD en 2019, quelle que soit la date de leur accession à l'un ou l'autre de ces groupes.

4. Le financement du développement ayant évolué au cours du temps, la variabilité des interprétations des donneurs sur la signification du terme « caractère concessionnel » a conduit à ce que les données notifiées ne soient pas approuvées par tous les membres au sujet des versements de prêts provenant de fonds levés sur les marchés des capitaux sans qu'il n'y ait de subvention directe du secteur public.

En attendant, pour garantir la transparence le CAD a approuvé en avril 2013 l'adjonction de la présente annexe dans les publications annuelles des nouvelles données sur l'APD, indiquant qu'il existe des divergences de vues sur le caractère concessionnel. Dans le cadre de cet accord, les arguments des trois membres dont le CAD a bien pris note sont présentés ci-dessous. Les autres membres continuent d'appliquer la pratique en vigueur de notification de l'APD et déclarer les prêts issus de fonds empruntés sur les marchés de capitaux comme concessionnels uniquement s'ils comportent une subvention directe.

L'accord prend spécialement note de l'argumentation présentée par l'UE concernant les prêts de la Banque européenne d'investissement (BEI) depuis 2008. Le CAD n'appliquera cette mesure que sur l'APD allant de 2011 à 2014. Il n'y aura pas de modification rétroactive pour les prêts consentis avant 2011. Les effets combinés de ces décisions font que sur la période 2008-10, les données sur les apports concessionnels présentées dans les statistiques du CAD pour les Institutions de l'UE consistent en des dons uniquement, et tous les prêts de la Banque européenne d'investissement apparaissent comme non-concessionnels. En revanche, une partie significative des prêts de la BEI apparaît comme concessionnelle à partir de 2011.

Pour plus d'informations, voir : [www.oecd.org/fr/cad/stats/concessionalite-note.htm](http://www.oecd.org/fr/cad/stats/concessionalite-note.htm).

Lors de la Réunion à Haut Niveau de décembre 2014, les membres du CAD sont parvenus à un accord historique sur la mesure du financement du développement, la définition de l'APD, et y ont apporté d'importantes améliorations afin de garantir une image juste de l'effort des apporteurs d'aide. Tandis que par le passé, était comptée comme APD la valeur faciale des dons et prêts, ils sont convenus que seuls les dons et « la partie-don » des prêts concessionnels seraient pris en considération. Cela fournit une comparaison plus réaliste des prêts et des dons, encourage l'usage des dons ainsi que des prêts les plus concessionnels, ceux-ci continuant à jouer un rôle-clef dans la mobilisation des ressources en soutien des Objectifs de Développement Durable (ODD). Le nouveau système de mesure promeut une transparence et une responsabilité améliorées, en même temps qu'il stimule plus et oriente mieux les ressources.

Ce nouveau système est devenu la norme à partir de la notification des apports en 2018.

## ANNEX

*Definitions of concepts used in this report*

A1. Disbursements represent the actual international transfer of financial resources. They may be recorded at one of several stages: Provision of goods and services, placing of funds at the disposal of the recipient in an earmarked fund or account, withdrawal of funds by the recipient from an earmarked fund or account, payment by the donor of invoices on behalf of the recipient, etc. The disbursement mechanism used tends to vary as a function of the type of financial (or technical) co-operation flow involved. Internal development-related expenditures (e.g. administrative costs, development research in the donor country) are measured at the point at which payment is made by the official sector. Disbursements may be recorded gross (the actual amounts disbursed) or net (i.e., less repayments of principal in respect of earlier loans).

A2. A *commitment* is a firm obligation expressed in an agreement or equivalent contract and supported by the availability of public funds, undertaken by the government, an official agency of the reporting country or an international organisation, to furnish assistance of a specified amount under agreed financial terms and -conditions and for specific purposes, for the benefit of a recipient country.

A3. Grant element: Reflects the financial terms of a transaction: interest rate, maturity (interval to final repayment) and grace period (interval to first repayment of capital). It is a measure of the concessionality (softness) of a loan. The extent of concessionality can be measured either as the benefit to the borrower, or the opportunity cost to the lender. Both benefit and opportunity cost depend on the interest rate and duration of the loan. In a benefit calculation, concessionality would be calculated from the difference between the interest charged and the market rate of interest which the borrower would otherwise have had to pay. In an opportunity cost calculation, the concessionality would be calculated from the difference between the interest charged and the return that the lender could have expected from the next most profitable means of investing the capital. DAC statistics generally measure costs to donors, and consideration of opportunity costs played an important part in determining a reference rate of interest for calculating grant elements. In 2012, the DAC launched the modernisation of its statistical system in order to improve its accuracy while reflecting the changes in the development co-operation sector, such as the growing importance of other providers – non-DAC providers or philanthropic foundations -, the diversification of financial instruments for development, or the increasing overlap of development co-operation policy objectives with those of other sectors such as migration and security. For more information on the ODA modernisation see: <http://www.oecd.org/dac/financing-sustainable-development/modernisation-dac-statistical-system.htm>.

## Aggregates and resource flow categories

A4. Official Development Assistance is defined as those flows to developing countries and multilateral institutions provided by official agencies, including state and local governments, or by their executive agencies, each transaction of which meets the following tests:

- a) it is administered with the promotion of the economic development and welfare of developing countries as its main objective; and
- b) it is concessional in character.

A5. Grants: This heading covers transfers, in money or in kind, for which no repayment is required. It includes grants for technical co-operation and grant-like flows, i.e., loans (or commodities for sale) the proceeds of which will not be repatriated by the donor, but placed in an account for the use of the recipient. The following are excluded: Pensions, reparations and indemnification payments to private individuals or firms, and insurance and similar payments to residents of developing countries.

A6. ODA Loans: Loans with maturities of over one year and meeting the criteria set out in paragraph A4, extended by governments or official agencies, and for which repayment is required in convertible currencies or in kind. Rescheduling (maturity extension of loans originally made by a government or official agency) and loans made by a government or an official agency to refinance indebtedness due to the private or official sector, are included if reported as Official Development Assistance, otherwise as "Other Official Flows". The net data are reported after deduction of amortisation payments and the impact of other measures reducing debt (e.g. forgiveness).

A7. Other Official Flows: Transactions by the official sector whose main objective is other than development--motivated, or, if development-motivated, whose grant element is below 25%. The main classes of transactions included here are official export credits, official sector equity and portfolio investment, and debt reorganisation undertaken by the official sector at non-concessional terms (irrespective of the nature or the identity of the original creditor).

A8. Total Official Flows: The sum of Official Development Assistance (ODA) and Other Official Flows (OOF) represents the total (gross or net) disbursements by the official sector at large to the recipient country shown.

A9. Funds provided by the official sector to support export credits or direct investment by the private sector are treated in this report as an indistinguishable part of the relevant private sector transactions. This approach differs from that in the aggregate statistics presented in other DAC publications, where these amounts are included as part of the official sector total, and the aggregate amounts for the private sector reduced correspondingly. For purposes of geographical allocation, the pertinent concept is the transactor dealing with a developing country; this latter is not concerned with the sources of the transactor's funds, as its indebtedness is to the transactor, not his sources of finance. By contrast, the aggregate statistics for individual donor countries place emphasis on the source of funds, which governs the extent to which official policy can determine the amount, terms and distribution of transactions in which official sector resources form part of the total financing package.

A10. *Official Development Finance (ODF)*, measured for recipient countries only, is defined as the sum of their receipts of bilateral ODA, concessional and non-concessional resources from multilateral sources, and bilateral other official flows made available for reasons unrelated to trade, in particular loans to refinance debt.

A11. *Total Contractual Lending*: Bilateral ODA and OOF loans plus officially guaranteed private export credits i.e., all official and officially-supported lending. Excludes unguaranteed loans and credits extended by the banking sector.

A12. *Multilateral Agencies*: The list of multilateral agencies for which data are shown separately in this report is given in the Introduction. Each agency reports accurate data on its concessional and non-concessional flows. In general, loan disbursements are treated as non-concessional if made from “ordinary capital” resources and as concessional if made from a “soft window”. The grant element criteria discussed in paragraph A3 are not applied to the transactions of multilateral agencies.

A13. *Total Receipts, Net*: In addition to Official Development Assistance, this heading includes in particular: other official bilateral transactions which are not concessional or which, even though they have concessional elements, are primarily trade facilitating in character (i.e., “Other Official Flows”); changes in bilateral long-term assets of the private non-monetary and monetary sectors, in particular guaranteed export credits, private direct investment, portfolio investment and, to the extent they are not covered in the preceding headings, loans by private banks. Flows from the multilateral sector which are not classified as concessional are also included here.

### Relationships between the categories shown in the Report

A14. The total net resource flow data presented for a recipient country (“total net receipts”) is the sum of items (1 + 2 + 3 = 4) in the table below.

Categories	DAC donors	Multilateral donors	Other providing countries
1. ODA, net	By country	By agency	By country
2. OOF, net	As a group	As a group	As a group
3. Private sector flows, net	As a group	Not applicable	Not available
4. Total resource flows, net	By country	By agency	Incomplete

A15. “Private sector, net” is broken down, for DAC members combined, into direct investment and portfolio investment. The transactions covered are those undertaken by residents of DAC member countries. Portfolio investment corresponds to bonds and equities. Inflows into emerging countries’ stock markets are, however, heavily understated.

## *Notes on the interpretation of certain data*

A16. In establishing the statistical data in the present report, the aim is to present the fullest possible record of the resources put at the disposal of each country covered. However, there are some inconsistencies in members' reporting. Although they are of marginal impact at aggregate level, it was nevertheless necessary to make estimates which in some instances affect the data shown, and in others were intended to fill gaps in the data originally submitted.

A17. The following list sets out the main areas in which particularities of the data stemming from these causes could have some influence on their understanding or use by the reader.

### Data for country groups

#### a) Contents of the groups

A18. See DAC List of ODA recipients at the end of this publication.

#### b) Treatment of unallocated amounts

A19. Some reporting countries are unable to supply a full geographical distribution. One element here is that some commitments or disbursements in fact relate to expenditures in a given region (e.g., West Africa) or group of countries (e.g., the Least Developed Countries). The data shown for countries and for groups are restricted to those which are available, broken down by recipient. Amounts reported as provided to a region or group are included as "unallocated". Unallocated amounts also include commitments and disbursements concerning expenditures on the territory of the donor country for research specific to some developing countries' problems (e.g., tropical diseases) or in the form of subsidies to nationals of developing countries, e.g., for apprenticeships, or school or university tuition. There are obvious statistical difficulties in assigning these amounts to the countries of origin of the people concerned.

### Other aspects

A20. Negative grants: The return to the donor of unspent balances previously disbursed as grants can result in negative grant figures.

A21. Cancellations of commitments: The data on commitments concern new commitments entered into during the calendar year. They exclude commitments that were cancelled in the year they were made, but are not adjusted to allow for cancellations during the year reported on of commitments made in earlier years.

A22. *Effect of changes in exchange rates*: The currency unit used throughout this report is the US dollar. Loans are often denominated in another currency. If that currency strengthens *vis-à-vis* the dollar, repayments on the loan are reflected in the statistics by an increased number of dollars. This accounts for a number of cases in which cumulative

repayments appear to exceed the original amount lent. Similarly, the weakening of a currency produces cases in which repayments, expressed in dollars, appear to be less than the original amount lent. In comparing data on changes in debt with the figures shown for net resource flows in this report, it should also be borne in mind that the debt data are converted to dollars at the end-of-period rate, whereas the flow data are converted at the annual average rate.

A23. Resource flows from the European Union Institutions: The figures shown pertain to outflows from the EU Institutions, including outflows from the European Investment Bank at market terms. The latter can be ascertained from the data in the present volume as the difference between a country's Total Net Receipts from the EU Institutions and its receipts of Total Net ODA from the EU Institutions.

## ANNEXE

*Définition des concepts utilisés dans le présent rapport*

A1. Les versements, tels que définis dans le présent rapport, représentent le transfert effectif de ressources financières au niveau international. Ils peuvent être saisis à l'un des stades suivants : fourniture de biens et services, dépôt de sommes mises à la disposition du bénéficiaire dans un fonds ou un compte réservé, retrait de fonds par le bénéficiaire sur un compte ou un fonds réservé, paiement de factures par le donneur pour le compte du bénéficiaire, etc. Les modalités de versement tendent à varier en fonction du type d'apport de coopération financière (ou technique) en cause. Les dépenses internes liées au développement (frais administratifs, recherches sur le développement dans le pays donneur) sont mesurées au stade du paiement par le secteur public). Les versements sont comptabilisés soit bruts (c'est-à-dire les montants effectivement versés), soit nets (c'est-à-dire moins le remboursement du capital au titre de prêts antérieurs).

A2. Un engagement s'entend d'une obligation ferme, stipulée dans un contrat ou un accord similaire et étayée par la mise à disposition de fonds publics ; par cette obligation, le gouvernement, un organisme public du pays déclarant ou un organisme multilatéral s'engage à fournir, au profit du pays bénéficiaire, une aide d'un montant spécifié, assortie de conditions financières déterminées et destinées à des fins données.

A3. Élément de libéralité : résume les conditions financières d'une opération : taux d'intérêt, durée de remboursement (délai jusqu'au remboursement final) et différé d'amortissement (délai jusqu'au premier remboursement du capital). Il s'agit d'une mesure de la libéralité d'un prêt. Le degré de libéralité peut s'entendre soit de l'avantage allant à l'emprunteur soit du coût d'opportunité pour le prêteur. L'un comme l'autre dépendent du taux d'intérêt et de la durée du prêt. Dans le calcul de l'avantage procuré, le degré de libéralité serait la différence entre le taux d'intérêt perçu et le taux d'intérêt du marché que l'emprunteur aurait dû acquitter de toute manière. Dans le calcul du coût d'opportunité, le degré de libéralité serait la différence entre le taux d'intérêt perçu et la rentabilité que l'emprunteur aurait pu attendre de l'investissement en capital le plus rentable venant en deuxième position. Les statistiques du CAD mesurent en général les coûts pour les donneurs, et la prise en considération du coût d'opportunité a joué un rôle important dans la détermination du taux d'intérêt de référence pour le calcul des éléments de libéralité. En 2012, le CAD a engagé un processus de modernisation de son système statistique afin d'en améliorer l'exactitude tout en prenant en compte les changements survenus dans le secteur de la coopération pour le développement – par exemple, l'importance croissante d'autres fournisseurs (fournisseurs non membres du CAD ou fondations philanthropiques), la diversification des instruments financiers à l'appui du développement ou le recoupement croissant entre les objectifs des politiques de coopération pour le développement et ceux qui concernent d'autres domaines (comme les migrations et la sécurité). ### Agrégats et apports de ressource par catégories

A4. Par aide publique au développement, on entend l'ensemble des apports de ressources qui sont fournis aux pays en développement et aux institutions multilatérales par des organismes officiels, y compris les collectivités locales, ou par leurs agents d'exécution et qui, considérés au niveau de chaque opération, répondent aux critères suivants :

- a) être dispensés dans le but essentiel de favoriser le développement économique et l'amélioration du niveau de vie dans les pays en développement ; et
- b) revêtir un caractère de faveur.

A5. Dons : cette rubrique couvre les transferts, en espèces ou en nature, qui n'impliquent aucun remboursement. Elle inclut les dons au titre de la coopération technique et les apports assimilables à des dons, c'est-à-dire les prêts dont les remboursements ne seront pas rapatriés dans le pays donneur, ou des marchandises destinées à la vente – le produit de ces opérations devant être placé en compte à l'usage du pays bénéficiaire. Sont également exclus les pensions, les paiements de réparation et d'indemnisation à des particuliers ou à des firmes, et les paiements d'assurances et autres paiements similaires à des résidents de pays en développement.

A6. Prêts d'APD : ce sont les prêts à plus d'un an accordés par des gouvernements et des organismes publics, remboursables en monnaies convertibles ou en nature, qui satisfont aux critères énoncés dans le paragraphe A4 ci-dessus. Les opérations de rééchelonnement des échéances (allongement de la durée de prêts initialement accordés par un gouvernement ou un organisme public) et les prêts octroyés par un gouvernement ou un organisme public pour refinancer une dette contractée auprès du secteur privé ou du secteur public sont inclus dans cette catégorie s'ils sont notifiés comme aide publique au développement ; sinon, ils sont classés dans les « autres apports du secteur public ». Les montants nets sont indiqués après déduction des remboursements et d'autres moyens de réduction de l'encours par exemple l'effacement de la dette.

A7. Autres apports du secteur public (AASP) : il s'agit des opérations du secteur public dont le but essentiel est autre que le développement ou qui, tout en visant à favoriser le développement, sont assorties d'un élément de libéralité inférieur au seuil de 25 %. Les principales catégories d'opérations couvertes dans les AASP sont les crédits publics à l'exportation, les prises de participation et les investissements de portefeuille du secteur public et le réaménagement de la dette effectué par le secteur public aux conditions du marché (et ce, quelle que soit la nature ou l'identité du créancier initial).

A8. Apports totaux du secteur public : il s'agit du total de l'aide publique au développement (APD) et des autres apports du secteur public (AASP). Cet agrégat correspond aux versements (bruts ou nets) effectués par le secteur public dans son ensemble aux pays bénéficiaires considérés.

A9. Les ressources fournies par le secteur public pour soutenir les crédits à l'exportation ou les investissements directs du secteur privé sont comptabilisées dans le présent rapport avec les opérations correspondantes du secteur privé. Cette approche diffère de celle utilisée dans les données statistiques agrégées présentées dans certains autres documents établis par le CAD, où les montants en cause sont inclus dans les totaux afférents au secteur public et où les montants relatifs au secteur privé sont réduits proportionnellement. Dans l'optique de la répartition géographique, il convient de retenir

comme unité statistique l'opérateur qui est en relation avec un pays en développement ; l'emprunteur ne s'intéresse pas à l'origine des capitaux que cet opérateur lui fournit, son endettement étant envers cet opérateur et non envers les sources de financement de ce dernier. Dans les statistiques agrégées pour les pays donneurs, en revanche, l'accent est mis sur les sources des fonds, car ce sont elles qui déterminent la mesure dans laquelle les politiques mises en œuvre par le secteur public peuvent fixer les montants totaux, les conditions financières et la répartition géographique des apports, dès lors que ceux-ci englobent des ressources en provenance du secteur public.

A10. Financement public du développement (FPD) (agrégat calculé pour les seuls pays bénéficiaires) : le total pour chaque bénéficiaire des apports d'APD bilatérale, des ressources mises à disposition par le secteur multilatéral, qu'elles comportent ou non un élément de libéralité, et des AASP fournis pour des raisons n'ayant pas trait au commerce international, plus particulièrement les prêts dont l'objet est de refinancer l'endettement.

A11. Total des prêts contractuels : il s'agit du total des prêts bilatéraux au titre de l'APD ou des AASP, et des crédits privés garantis à l'exportation, c'est-à-dire la totalité des prêts en provenance du secteur public ou garantis par celui-ci. Les prêts non garantis et les crédits financiers accordés par le secteur bancaire sont exclus.

A12. Organismes multilatéraux : la liste des organismes multilatéraux auxquels se réfèrent les données dans le présent rapport a été présentée dans l'introduction. Chaque agence notifie des données précises sur ses apports assortis de -conditions libérales et ceux qui sont assortis des conditions du marché. D'une manière générale, les versements de prêts sont considérés comme non libéraux s'ils sont effectués à l'aide de ressources en capital ordinaire et comme libéraux lorsqu'ils viennent de « guichets spéciaux ». Le critère de l'élément de libéralité discuté au paragraphe A3 n'est pas appliqué aux transactions des agences multilatérales.

A13. *Recettes totales nettes* : outre l'aide publique au développement, cette rubrique comprend en particulier : les autres transactions publiques bilatérales qui ne sont pas assorties de conditions libérales ou qui, dans le cas contraire, restent néanmoins de nature essentiellement commerciale (« autres apports du secteur public ») ; les variations des actifs bilatéraux à long terme du secteur privé monétaire et non monétaire, en particulier les crédits à l'exportation garantis, les investissements -privés directs et, dans la mesure où ils ne sont pas repris dans les rubriques précédentes, les prêts des banques -privées. Les apports en provenance des organismes multilatéraux qui ne sont pas considérés comme assortis de conditions libérales sont aussi inclus dans cette rubrique.

### Liens entre les catégories d'apports présentées dans le rapport

A14. Pour un pays bénéficiaire donné, le total net des apports de ressources (« recettes totales nettes ») est la somme des rubriques (1 + 2 + 3 = 4) figurant dans le tableau ci-après.

Catégories	Donneurs du CAD	Donneurs multilatéraux	Autres pays donneurs
1. APD, montants nets	Par pays	Par organisme	Par pays
2. AASP, montants nets	En tant que groupe	En tant que groupe	En tant que groupe
3. Apports nets du secteur privé	En tant que groupe	Sans objet	Non disponible
4. Total net des apports de ressources	Par pays	Par organisme	Incomplet

A15. La rubrique « apports nets du secteur privé » est ventilée, pour l'ensemble des membres du CAD, en investissements directs et investissements de portefeuille. Les

opérations recensées dans chaque catégorie sont celles qui sont entreprises par des opérateurs résidents des pays membres du CAD. Les investissements de portefeuille correspondent aux achats d'obligations et aux prises de participation. Les flux vers les marchés des capitaux des économies émergentes sont cependant largement sous-estimés.

## *Notes sur l'interprétation de certaines données*

A16. L'élaboration des données statistiques présentées dans ce rapport a pour but de dresser un tableau aussi complet que possible des ressources mises à la disposition de chaque pays visé. Les déclarations des pays membres comportent néanmoins certaines incohérences ou lacunes qui, bien que n'ayant qu'une incidence marginale sur les données agrégées, ont obligé à recourir à des estimations influant, dans certains cas, sur le contenu des données ou permettant, dans d'autres, de combler les lacunes constatées.

A17. On trouvera ci-après la liste des principaux domaines où certaines particularités des données dues à ces facteurs pourraient gêner leur compréhension ou utilisation par le lecteur.

### Données par groupes de pays

#### a) Groupes retenus

A18. Voir, à la fin du volume, la Liste des bénéficiaires de l'APD établie par le CAD.

#### b) Traitement des montants non ventilés

A19. Certains pays déclarants n'ont pas la possibilité de ventiler la totalité de leurs apports par pays de destination, dans la mesure où les engagements ou les versements concernent des dépenses à entreprendre soit dans une région donnée (par exemple, l'Afrique de l'Ouest), soit dans un groupe de pays donnés (par exemple, les pays les moins avancés). Dans ce rapport, les données présentées pour les pays et pour les groupes sont limitées à celles pouvant être ventilées par bénéficiaires. Les montants notifiés comme ayant été versés à une région ou à un groupe sont inscrits à la rubrique des montants « non ventilés ». À la rubrique des montants non ventilés sont inscrites par ailleurs les ressources engagées ou versées sur le territoire du pays donneur soit pour des recherches consacrées à certains problèmes propres aux pays en développement (maladies tropicales, par exemple), soit sous la forme de subventions à des ressortissants de pays en développement, par exemple pour des stages d'apprentissage ou des cours dans des établissements scolaires ou universitaires ; pour des raisons statistiques évidentes, ces sommes ne peuvent être réparties entre les pays bénéficiaires.

### Autres remarques

A20. Dons négatifs : le remboursement à un pays donneur de montants déjà alloués sous forme de dons peut conduire à la notification de montants de dons négatifs.

A21. Annulation des engagements : les données relatives aux engagements concernent les nouveaux engagements souscrits dans l'année. Elles excluent les engagements annulés dans l'année où ils ont été souscrits, mais aucune défalcation n'est faite pour tenir

compte des annulations au cours de l'année d'engagements souscrits pendant des années antérieures.

A22. Effet des variations des taux de change : l'unité monétaire utilisée dans le présent rapport est le dollar des États-Unis. Or les prêts sont souvent libellés dans une autre monnaie. Si celle-ci se raffermi par rapport au dollar, le montant des remboursements apparaissant dans les statistiques représente un chiffre en dollars plus important. Il est ainsi des cas où le total des remboursements paraît dépasser le montant primitif du prêt. De même, l'affaiblissement d'une monnaie se traduit dans les statistiques par des remboursements dont le total, estimé en dollars, paraît être inférieur au principal. Si on effectue une comparaison des variations de la dette avec les chiffres présentés pour les apports totaux nets de ressources dans le présent rapport, il faut garder à l'esprit que les données relatives à la dette sont converties en dollars au taux s'appliquant en fin de période, tandis que les données relatives aux apports sont converties au taux annuel moyen.

A23. *Apports de ressources en provenance des Institutions de l'Union européenne* : les chiffres présentés englobent les dons et les prêts des Institutions de l'Union européenne ainsi que les fonds mis à disposition par la Banque européenne d'investissement aux conditions du marché. Ces derniers montants peuvent être déterminés à partir des données figurant dans le présent volume en calculant la différence entre le total des apports des Institutions de l'Union européenne reçus par un pays et le montant de ses recettes d'APD en provenance des Institutions de l'Union européenne.
