TRENDS AND INDICATORS

This work is published under the responsibility of the Secretary-General of the OECD. The opinions expressed and arguments employed herein do not necessarily reflect the official views of OECD member countries.

This document, as well as any data and map included herein, are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries and to the name of any territory, city or area.

The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

# OECD Quarterly International Trade Statistics

This reliable and up-to-date source of OECD quarterly balance of payments and international merchandise trade statistics provides a detailed insight into the most recent trends in trading patterns for OECD countries with the rest of the world. Balance of payments data are presented adjusted for seasonal variations. International trade data are broken down by country. The series shown cover data for the last ten quarters and two years available. This quarterly publication is divided into three parts: I. Balance of payments and international trade, II. International merchandise trade by country and III. International trade by enterprise characteristics (annual data). The third part is a special topic which changes with each publication.
