

Adaptation in the first global stocktake

Potential GST outcomes on adaptation

Outcomes in Paris Agreement

Further potential outcomes

- Inform Parties in updating and enhancing national actions
- Enhance international co-operation for climate action

Identify priority information needs and knowledge gaps

Improve understanding of available tools, guidance and methodologies

Share good practices, experiences and lessons learned

Potential GST1 outputs on adaptation

Follow-up by Parties, UNFCCC processes & relevant bodies

- ✓ Invite Parties to conduct self-assessments of adaptation efforts in submissions to the UNFCCC, which could inform future GSTs
- ✓ Invite AC-LEG-SCF to assess approaches to review adequacy & effectiveness of adaptation, and options for combining different approaches
- ✓ Invite PCCB to prioritise GST1 follow-up, incl. support to develop and enhance M&E/MEL systems

Follow-up by non-Party stakeholders (NPS)

- ✓ Encourage research community to address priority gaps in information, guidance & methodologies
- ✓ Encourage NPS to incorporate GST1 findings in country support work, incl. to implement NAPs, to enhance M&E/MEL systems etc.

Technical information for policy makers & practitioners

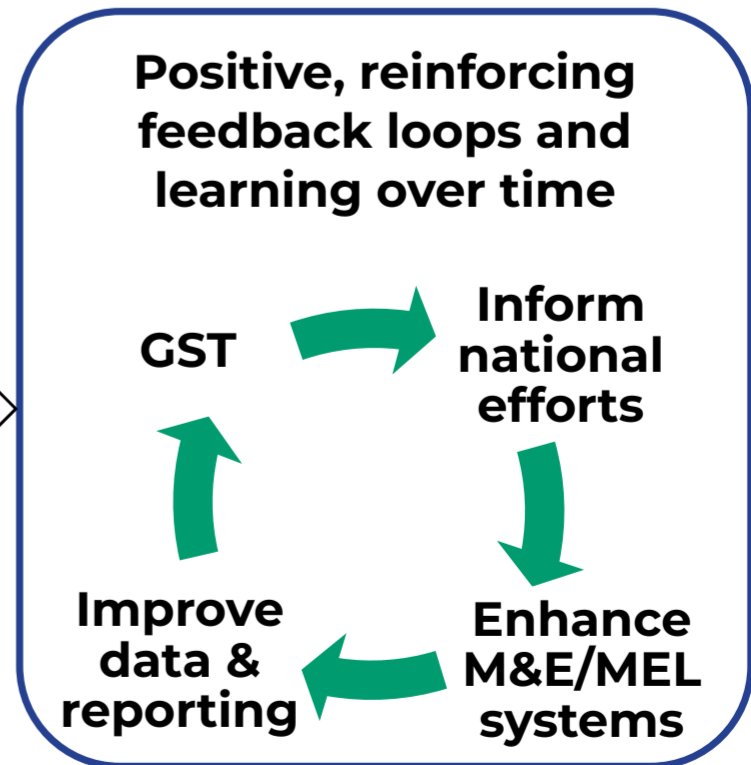

- ✓ Identify priority adaptation-related information needs and gaps
- ✓ Identify enabling factors and criteria for effective adaptation action
- ✓ Identify good practices, experiences and lessons learned

Notes: AC – Adaptation Committee; LEG - Least Developed Countries Expert Group; SCF - Standing Committee on Finance; PCCB - Paris Committee on Capacity-building; M&E - Monitoring and evaluation; MEL – Monitoring, evaluation and learning; NAPs - National Adaptation Plans.

Looking ahead from GST1

GST1 can set a foundation for improved approaches and data on adaptation

- ✓ Identify priority data needs & gaps
- ✓ Increase understanding of approaches to assess adaptation actions
- ✓ Identify enabling factors for effective adaptation
- ✓ Build linkages with parallel processes, incl. on the GGA
