Taxpayer

Automatic input into return forms and automatic calculations

"Mynaportal" ... An online site operated by the government which enables users to complete various administrative procedures in one stop and check notifications from government organization

Advantages

- Paperless
- Reduction of the administrative burdens (such as automatically input)

Other Advantages of My Number System

1. Realization of a fairer society
 - The system enables the NTA to identify the taxpayer who gained the income through any legal records.
 - The NTA can comprehend the taxpayers' income more accurately.
2. Improved administrative efficiency
 - The system reduces the administrative task of receiving the documents (attachments) and inputting data.
 - The system reduces the storage costs for administrative documents.
3. Enhanced public convenience
 - Taxpayers don't have to submit ID documents to tax authority during filing period.

" My Number" ... A 12-digit number which each Japanese are assigned
